

Tenure Track Faculty Position Bowling Green State University

The Department of Physics & Astronomy at Bowling Green State University invites applications for a tenure-track faculty position at the Assistant Professor level available in August 2012. We seek a theorist who can complement one of our existing research areas, preferably condensed matter physics related to colloidal low-dimensional systems, nanostructured materials, and their applications in solution-processed optoelectronic devices. A Ph.D. in physics or a related field is required. A successful candidate in condensed matter physics will be eligible for an appointment as an Associate Principal in the Center for Photochemical Sciences, an interdisciplinary research center offering the Ph.D. degree. Applicants should submit a CV, a brief statement (3 to 5 pages) of research plans, and a statement of teaching philosophy, and arrange for at least three letters of recommendation to be sent to: Search Committee, Dept. of Physics and Astronomy, Bowling Green State University, Bowling Green, Ohio, 43403 or search@physics.bgsu.edu. Applications should be received by Dec. 1, 2011 for full consideration. BGSU is an Equal Opportunity Employment/Affirmative Action employer and encourages applications from women, minorities, veterans and individuals with disabilities.
